Daniel Johnson

Senior Product Designer

Burleson, TX | Dallas-Fort Worth | 317.756.7488 | folaseyi@gmail.com
Portfolio: danieljohnson.bio

Professional Summary

I am a product and UX designer with over 15 years of experience making complex digital experiences easier to use. At JPMorgan Chase, I design enterprise risk workflows, data-heavy dashboards, and reusable interface patterns alongside product and engineering teams. I use Figma, React prototypes, and AI-assisted workflows to explore and test interactions before implementation. I hold a BSc in Computer Science and an MBA in Business Analytics.

Core Expertise

Enterprise product design, interaction design, information architecture, data visualization, user research, usability testing, design systems, accessibility, and React prototyping.

Professional Experience

JPMorgan Chase, Plano, TX | Jun 2022 - Present

Selected roles

Vice President, Operation & Innovations

Sep 2025 - Present

- Explore AI-assisted interfaces and interaction patterns through the Cross-Risk UX (CRUX) Innovation Lab, focusing on complex risk workflows and practical user tasks.
- Develop functional React prototypes with an internal LLM, GitHub Copilot, and enterprise design tokens so product and engineering teams can evaluate interactions before implementation.
- Design dashboard interactions including filtering, sorting, drill-downs, threshold views, and comparisons to help users navigate dense risk information.
- Contribute modular components and accessible interaction patterns to enterprise design systems, supporting consistent experiences across products.
- Partner with product and engineering stakeholders to clarify requirements, review technical feasibility, and communicate design behavior through prototypes.

Vice President, Content & Design

Oct 2023 - Sep 2025

- Designed and refined financial product experiences using user research, usability testing, user flows, wireframes, and interactive prototypes.
- Collaborated with product managers and engineers on requirements and roadmaps, translating user needs into actionable design decisions.
- Contributed to the design system and advocated for accessible, inclusive interfaces and consistent interaction behavior.

Additional Experience

UI/UX Designer

Photon Infotech | Apr 2022 - Jun 2022

- Designed web and mobile interfaces, iterated on user feedback, and collaborated with developers on responsive behavior and accessibility.
- Presented research findings and design proposals to stakeholders; used A/B testing to evaluate design alternatives.

Product Designer

Dms Smith, Lebanon, IN | Mar 2020 - Apr 2021

- Created and reviewed print layouts for quality, consistency, and production accuracy; collaborated with marketing and production on branding, photography, and video assignments.

UI/UX Designer

United Bank for Africa, Lagos, Nigeria | Feb 2013 - Aug 2016

- Translated requirements into storyboards, process flows, sitemaps, wireframes, and interactive prototypes for banking websites.
- Conducted usability testing, analyzed feedback, and addressed navigation and responsive interface issues with product and engineering partners.

UI/UX Designer

Freelance | Sep 2008 - Present | Concurrent with employed roles

- Designed user flows, wireframes, prototypes, style guides, and reusable patterns for client projects; used heuristic evaluations to identify usability improvements.
- Collaborated with marketing teams on brand consistency and optimized images and graphics for web delivery.

Education

MBA, Business Analytics

Southern New Hampshire University | Apr 2023 - Nov 2024

BSc, Computer Science

Olabisi Onabanjo University, Ago Iwoye, Nigeria | Feb 2005 - Oct 2010

Tools and Methods

Figma, Sketch, React, HTML, CSS, JavaScript, VS Code, GitHub Copilot, internal LLM tools, Power BI, Tableau, Excel, Photoshop.

User research, usability testing, information architecture, interaction design, accessible interface patterns, design tokens, prototyping, heuristic evaluation, and A/B testing.
