Daniel Johnson

SENIOR PRODUCT DESIGNER | UX STRATEGY | DESIGN SYSTEMS | PROTOTYPING

Burleson, TX | Dallas–Fort Worth | 317.756.7488 | folaseyi@gmail.com
Portfolio: danieljohnson.bio

Professional Summary

Product and UX design leader with 15+ years of experience shaping digital experiences across financial and enterprise products. Turns complex business, user, and technical requirements into clear workflows and interfaces through discovery, research, interaction and content design, prototyping, and close partnership with product and engineering. Experienced in data-heavy products, design systems, accessibility, roadmap alignment, and AI-assisted prototyping. MBA in Business Analytics; BSc in Computer Science.

Core Skills

Product strategy: Product discovery, problem framing, prioritization, roadmap alignment, journey mapping, information architecture, stakeholder facilitation

Design and research: Interaction design, content design, user flows, wireframes, high-fidelity UI, data visualization, user research, usability testing, heuristic evaluation, A/B testing, accessibility

Systems and tools: Design systems, reusable components, design tokens, Figma, Sketch, React, HTML, CSS, JavaScript, VS Code, GitHub Copilot, internal LLM tools, Claude, ChatGPT, Power BI, Tableau, Excel, Contentful, Adobe Experience Manager

Professional Experience

Vice President, Innovation & Design Operations

JPMorgan Chase | Plano, TX | Sep 2025–Present

- Align product and engineering partners on business questions, user needs, and system constraints for complex risk products; turn the agreed problem framing into workflows, high-fidelity interfaces, and implementation guidance that make requirements actionable.
- Use research, usability feedback, and product data to surface friction in dashboards and analysis workflows; present clear design alternatives that help stakeholders prioritize improvements and make informed decisions.
- Established the Cross-Risk UX (CRUX) Innovation Lab to explore emerging interface and AI-assisted concepts. Build functional React prototypes with Figma, enterprise tokens, internal LLM tools, and GitHub Copilot, helping partners assess feasibility and align on interaction direction earlier. The design-to-code workflow also reduced UI quality-assurance bugs by 50%.
- Guide accessible, reusable interaction patterns and design system components, including WCAG 2.2 AA considerations, giving teams workflow-grounded guidance for more consistent implementation across products.

Vice President, Content & Design

JPMorgan Chase | Plano, TX | Oct 2023–Sep 2025

- Led UX and content design from discovery through delivery, translating user and business needs into organized information architecture, clear interface content, mapped flows, and prototypes that product and engineering could carry into implementation.
- Created voice and tone guidance, content frameworks, and interaction patterns that helped teams deliver clearer, more consistent, accessible web experiences.
- Combined usability tests, A/B tests, and customer feedback to pinpoint friction in content, navigation, and conversion paths; shared evidence and design recommendations that guided iteration and improved clarity across key journeys.

Professional Experience

Senior UI/UX Designer, Credit Risk

JPMorgan Chase | Plano, TX | Jun 2022–Oct 2023

- Translated enterprise credit risk requirements into user flows, wireframes, and interactive prototypes; partnered with product and engineering to resolve behavior and technical questions before implementation, reducing ambiguity during handoff.
- Designed data-heavy interfaces and reusable, accessible patterns that made complex risk workflows easier to follow and more consistent across the product.

UI/UX Designer

Photon Infotech | Apr 2021–Jun 2022

- Designed responsive web and mobile interfaces, using user feedback and developer collaboration to refine behavior and accessibility across screen sizes.
- Presented research findings and design proposals to stakeholders; used A/B tests to compare alternatives and inform design choices.

Product Designer

Dms Smith | Lebanon, IN | Mar 2020–Apr 2021

- Created and reviewed print layouts for quality and production accuracy, helping ensure deliverables met brand and production requirements; coordinated photography and video assignments with marketing and production partners.

UI/UX Designer

United Bank for Africa | Lagos, Nigeria | Feb 2013–Aug 2016

- Translated banking requirements into storyboards, process flows, sitemaps, wireframes, and interactive prototypes; incorporated usability testing and partner feedback to make website navigation clearer and responsive behavior more reliable.

UI/UX Designer

Freelance | Sep 2008–2013

- Created user flows, wireframes, prototypes, style guides, and reusable patterns; used heuristic evaluations to identify usability problems and deliver practical improvement recommendations.
- Partnered with marketing teams to maintain brand consistency and prepare optimized images and graphics for web delivery.

Education

MBA, Business Analytics | Southern New Hampshire University | Apr 2023–Nov 2024

BSc, Computer Science | Olabisi Onabanjo University, Ago Iwoye, Nigeria | Feb 2005–Oct 2010

Professional Affiliation

National Society of Leadership and Success
